REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

regarding claim 24, the prior art of record does not disclose or suggest a ball-and-socket joint comprising a metal ring having a radially outwardly angled flange that is extrusion-coated with material of a joint housing to positively lock the bearing shell within the joint housing as a result of coating the radially outwardly angled flange; the closest prior art, Maughan et al., 5,672,024, disclose a metal ring having a radially outwardly angled flange that is snapped with the material of the joint housing to positively lock the bearing shell in the housing 62; there is no motivation, absent applicant's own disclosure, to modify Maughan et al. since Maughan et al. are concerned with snap fitting the ring with the housing together; and,

regarding claim 13, this claim depends from claim 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
